## **What is paypal ?**

Paypal is online gateway payment method same like esewa or ipay . We can use their service to purchase , sell or pay the online bill . Nowadays there are lots of payment gateway method , like skirll , payza , moneybookers and many more . but paypal is the trusted and secure way to do online payment . So nepali people also want to have a verified paypal account from nepal but paypal is US based company so we cannot get verified account easily . And one more important thing is we cannot receive and send fund without verified paypal account .

## **How to get verified paypal account from Nepal ?**

Many nepalese peoples want to get verified paypal account from nepal but they don't have the right way to get verified paypal account from Nepal . I also try many tricks to get verified paypal account but never get success to get verified paypal account from Nepal .

Many nepali people have same question . Why Nepali people can't get verified paypal account from Nepal ? the answer is Due to Nepal Rastra Bank policy paypal is

not available for Nepal . I don't want to talk more about this . So today I am going to share one genuine tricks to get verified paypal account . So let's begin without any late .

- 1.You have create a payoneer master card . You have to remember one thing when you are creating payoneer account is that you need to provide right address . If you fill wrong address it will go to in wrong address . If you change the address later it will be hard to receive the card . When you will apply for payoneer card it will come after few months . Then you should to activate your card by putting the payoneer mastercard serial number .

- 2.Now its time to apply for paypal verified account . first login to your payoneer account and it will give you USA checking bank account free . You have to put US fake address when creating paypal account because your payoneer master card will use US bank account . You can get fake address from [Fakenamegenerator.com](http://Fakenamegenerator.com) . After creating paypal

account with US address now you should to link your payoneer bank account with payoneer . Remember ; when you are linking your bank account with paypal ; You should have some amount in your payoneer card . Otherwise paypal can reject your paypal account . You should to put bank account number and routing number in paypal account which is provided by payoneer . Now you should to wait for 2-3 business days until paypal send money to your payoneer account .

3. Paypal will send two small amount of money to your account . You should login to your paypal account and should put the two amount . Then your account will be only 50% complete . Don't leave from here . You should to do one more thing otherwise your paypal account is same like unverified paypal account .

4. Now you should to give a proof to paypal . You should to provide photo id or you should give US phone number. We don't have USA photo id cause we are not USA citizen so we can use a fake USA phone number . For this , You have one website and

its free . The website is TEXTNOW.com . sign up on this website and get a free USA number . and you can install the app of textnow.com.

5.Now put the Fake US number provided by textnow.com . Then paypal will give two option . Call or text . You can choose as your wish. If you choose text ; Paypal will send verification code in your textnow phone number or if you choose call option you have to receive the paypal call and you can put the verification . Now your paypal account is ready . You can buy , sell , receive or send the money to any paypal account .
